The commissioners demanded 500 tons of coal and meat, lard, oil, tobacco and matches, to be delivered within twentyfour hours, otherwise the inhabitants would be notified to quit and the town would be bombarded.

The Mayor was asked by the mutineers to issue a proclamation demanding the end of the war, the convocation of the congress of zemstvos, and calling the people to join the revolutionaries.

The inhabitants were panic stricken and began to flee. The workmen of the town demanded compliance with the orders of the mutineers. The municipality finally decided to comply, except as to the coal, as their was none to give.

ALL READY FOR REBELLION. Only a Spark Needed to Set the Whole Caucasus Aflame.

Special Cable Despatch to THE SUN. LONDON, July 7.-The Odessa correspondent of the Standard says if it is true that the Kniaz Potemkin intends to attack Fatoum, which is a second class fortification, it is extremely likely that the disaffected inhabitants will rise. With their cooperation the arsenal might be looted and the ammunition seized. Such an exploit would immediately kindle an unquenchable insurrection throughout the Caucasus.

The correspondent adds that the original plot of the mutineers failed, owing to the defection of the crew of the Georgei Pobiedonosets, but the failure was only temporary. The local elements for kindling the intended gigantic outbreak still exist. and it is too soon yet to say that the chances are entirely against them.

The Governor has announced that it is absolutely impossible to give plenary amnesty to the crew of the Kniaz Potemkin. Such an act would utterly and forever destroy discipline in both services.

EQUITABLE OFFICERS NOT PLAN-NING ANY DEFENSE.

When the District Attorney Returns From Kansas They Look for an Announcement From Him-Cravath Calls at His Office-Agents in New York Meet.

The stir in Equitable circles occasioned by the remarks of Justice Davis to the July Grand Jury and the reports that imnding disclosures would furnish sufficient evidence for criminal prosecutions subsided yesterday. The officers and directors will now await the return of District Attorney Jerome before holding any further conferences or mapping out plans of defense. Most of them, it was said yesterday, expect Jerome to institute some criminal

It became known definitely yesterday that Mr. Jerome had talked with Second Vice-President Gage E. Tarbell before his departure for Kansas. The interview took place at the offices of James B. Dill Mr. Tarbell's counsel, and lasted nearly three hours. At that meeting Mr. Jerome, it is said, declared that he had decided to ask certain of the Equitable directors to appear before him with their counsel and to ask them for a statement about matters which had been brought to his attention.

Mr. Jerome added, it is said, that these men could do as they saw fit in regard to furnishing information in the preliminary interviews, but he expressed the opinion that absolute frankness and straight outand-out statements would go further toward clearing the situation than any subterfuge. Mr. Jerome's interview with the second vice-president, it was said, was at the District Attorney's request.

Later it was said for him that his visit to the District Attorney's office had nothing to do with Equitable affairs.

The Governor said that while they discussed the Equitable society's affairs, there was nothing new to be said, except that the Superintendent was somewhat embarrassed at this season of the year with such a big task as the Equitable examination involved by the fact that members of his staff of examiners were entitled to the usual vacations, and it was not possible to make any marked progress with men not thoroughly familiar with the details of such work.

GERMANY BARS M. JAURES. Prohibits Meeting of Socialists He Was to Address.

Special Cable Desputch to THE SUN. BERLIN, July 6. For several days the Government has been perplexed as to how to prevent the prospective visit of M. Jaures, French Socialist leader, who was to address a meeting of German Social Democrats here Sunday. Germany's special objection seems to be lest it create the impression in Europe that the intervention of the Socialists in France and Germany is necessary to preclude dangerous complications in the Franco-German negotiations concerning Morocco. This idea has been fostered by the Socialist press here. The Government has now prohibited

M. Jaures's appearance in Berlin. In a letter Chancellor Von Buelow sent to Prince Von Radolin, German Ambassador to France, the Chancellor points out that the political role ascribed to him by the German Socialists is the cause.

The Chancellor has recalled that France has never hesitated to use its right to prevent foreign agitators from addressing meetings ir France. He instances the pro-hibitions against Herr Bebel and others.

ILLEGAL FIRE INSURANCE. Attorney-General Asked to Begin Action

Against the Interocean Company. ALBANY, July 7. - Attorney - General Mayer to-day received a petition from George A. Benton of Rochester, chairman of a committee of the New York State Central Organization of Cooperative Fire Insurance, requesting him to begin an action gainst Francis Shoemaker and others for their alleged illegal acts in acting as a corporation under the title of The Interocean Fire Insurance Company of Monroe County. The petition was filed by former Deputy Attorney-General George F. Slo-

cum of Rochester, attorney for the petitioners. The petition alleges that the men forming this company have not complied with Article 9 of the State Insurance law, under which it is organized. This article provides for the incorporation of cooperative rural fire insurance companies. It requires among other things, that companies organized under its provisions shall be composed of at least twenty-five incorporators,

owning collectively at least \$50,000 worth of real estate. The State Organization of Cooperative Fire Insurance, believing that there were a number of companies doing business under that article illegally, appointed a committee, composed of George A. Benton of Monroe county, R. G. H. Speed of Tomp-kins, C. E. Hull of Onondaga, W. E. Bassler of Schoharie and Frank E. Holmes of Cheof Schoharie and Frank E. Holmes of Chenango, to investigate the matter and report violations to the Attorney-General. This is the first case which this committee has brought to the attention of the Attorney-General. A hearing will be given by the Attorney-General on July 12.
